**Do you know someone
who lives in Lancashire,
who is looking for work
or wants to improve
their IT skills?**

We can help!

ReachIT Digital Inclusion project offers IT
skills training and employment support for
local unemployed people, especially those
aged 40 and over.

This project is funded by the European Social Fund and
the National Lottery, through the Big Lottery Fund.

The project offers a personalised package of
support to out of work residents in Lancashire,
making them more confident about using digital
technologies, helping to improve their IT and online
skills and ultimately supporting them towards and
into employment.
